General Rule

We respect our legal obligation to keep health information that identifies you, private. The law obligates us to give you notice of our privacy practices.

Generally, we can only use your health information in our office or disclose it outside of our office, without your written permission, for purposes of treatment, payment or healthcare operations. In most other situations, we will not use or disclose your health information unless you sign a written authorization form. In some limited situations, the law allows or requires us to disclose your health information without written authorization.

Examples of how we use information for treatment purposes:

- When our staff helps you select and order glasses or contact lenses.
- When we show you low vision aids.

We may disclose your health information outside of our office for treatment purposes, for example:

- If we refer you to another doctor or clinic for eye care or low vision aids or services.
- If we send a prescription for glasses or contacts to another professional to be filled.
- When we provide a prescription for medication to a pharmacist.

Sometimes we may ask for copies of your health information from another professional that you may have seen before.
